Riječ direktora

Iako smo već dobro zakoračili u 2015. godinu, s obzirom da se ovaj godišnji izvještaj odnosi na 2014. godinu, potrebno je osvrnuti se na okruženje u kojem smo poslovali. Vjerujem da bi znatan broj društava za osiguranje volio proteklu 2014. godinu zaboraviti što prije. Uz nastavak ekonomске krize, kao i političku blokadu na brojnim nivoima vlasti, koja je posebno bila čvrsta jer se radilo o izbornoj godini, nekoliko vanrednih događaja je dalo posebnu težinu po kojoj će prošla godina ipak biti dugo upamćena.

Demonstracije u mjesecu februaru, koje su brojni mediji okarakterizirali kao opravdane, uzrokovane socijalnim problemima i nenasilne, imale su po našem uvjerenju i političku pozadinu i medijsku podršku koji su utjecali na njihov obim i trajanje. A zasigurno nisu bile nenasilne, već naprotiv, prerasle su u rušilački bunt. Posljedice tih demonstracija plaćat će cijelo društvo, jer je većina oštećenih ili uništenih objekata bila neosigurana, a znatne štete platit će i osiguranja.

Maj mjesec, a u znatno manjem obimu u avgust, donijeli su poplave u Bosni i Hercegovini i zemljama u regiji. Neoubičajeni splet okolnosti oko vremenske situacije prouzrokovao je izuzetno velike i dugotrajne padavine iznad Bosne i Hercegovine, Hrvatske i Srbije, pa i šire, što je dovelo do velikih poplava i klizišta. Ekonomski šteta samo u Bosni i Hercegovini je procijenjena na oko 4 milijarde KM (oko 2 milijarde EUR), dok šteta za osiguranje neće biti precizno poznata, a naša procjena je da je iznosila oko 100-120 miliona KM (50-60 miliona EUR). Čudi činjenica da ni nakon ovih velikih poplava stvarni interes za osiguranjem od poplave i ostalih prirodnih opasnosti nije povećan. S obzirom da je najveći dio stanovništva, kao i dobar dio međunarodne zajednice, na stajalištu da vlasti svih nivoa nisu adekvatno odgovorile na potrebe ugroženog stanovništva tokom trajanja i nakon poplava,

A Word by Director

Although we have greatly stepped in 2015, and since this annual report refers to 2014, it is necessary to look at the environment in which we performed our business. I believe that most of the insurance companies would like to forget 2014 as soon as possible. Besides continued economic crisis and political blockade at various levels of government which was particularly stiff since this was a year of elections, several exceptional events brought to the weight of past year that will be long remembered.

The demonstrations in February characterized by media as reasonable and induced by social crisis and non-violent had, in our opinion, a political background and media support thus influencing the events dimensions and duration. And certainly, the demonstrations were not peaceful at all but, contrary, developed into destructive rebellion. The whole society will pay for the consequences of those demonstrations, because the most of the damaged or destroyed buildings were not insured and, of course, considerable claims will be paid by insurance industry.

In May, and to lesser extent, in August, floods hit Bosnia and Herzegovina and neighbouring countries. The combination of uncommon weather circumstances has caused large and prolonged rainfall in Bosnia and Herzegovina, Croatia, Serbia and wider region, which resulted in severe flooding and landslides. The economic damage only in Bosnia and Herzegovina is estimated to near BAM 4 billion (approximately EUR 2 billion) while damage for insurance industry will not be accurately known although we estimate it to BAM 100-120 million (approximately EUR 50-60 million). Surprisingly, even after these severe floods the interest for flood and other natural hazards insurance did not increase. Considering that most of the population, as well as a good part of international community judge that the authorities at all levels did not adequately

eventualno rješenje za buduće ovakve događaje morat će se tražiti i razvijati najviše unutar udruženja za osiguranje Federacije Bosne i Hercegovine i Republike Srpske.

Iako je poplavom pogodjena velika površina Bosne i Hercegovine, oštećeni brojni proizvodni pogoni i desetine hiljada stambenih jedinica, te jako oštećena infrastruktura, uticaj ove katastrofe na ekonomiju nije bio toliko veliki koliko smo se pribojavali. Uz porast izvoza (ali i uvoza), povećan je i broj zaposlenih a nešto smanjen broj nezaposlenih osoba. Zabilježena je i deflacija od 0,4%. Oblast osiguranja je iskazala rast premije od 6,64%. Iako smo mi takvim rastom nezadovoljni, BiH ostaje jedna od rijetkih zemalja u regiji s kontinuiranim rastom premije osiguranja.

Bosna reosiguranje d.d. je proteklu vrlo tešku godinu – uz demonstracije i poplave imali smo i dvije veće požarne štete – ipak završila sa zadovoljavajućim uspjehom. Iako smo zbog raznih okolnosti ostvarili nešto nižu bruto premiju reosiguranja u poređenju sa 2013. godinom (pad od 1,8%), naša neto premija je porasla za 4,1%. Zahvaljujući dobro postavljenom programu retrocesije, iako smo bili izloženi znatno većem obimu šteta nego uobičajeno, ostvarili smo bruto dobit od 1,8 miliona KM, što je 88% od planirane dobiti. Stoga smatramo da smo ostvarili dobre rezultate.

Pred kraj 2014. godine Bosna reosiguranje d.d. je izvršila denominaciju svojih dionica. Broj dionica i njihova nominalna vrijednost su promijenjeni za faktor pet – broj dionica sa 3.869 na 19.345, a njihova nominalna vrijednost sa 1.300 KM po dionici na 260 KM po dionici. Glavni razlog za ovu promjenu je bio omogućavanje lakšeg trgovanja dionicama na burzi. S obzirom da je u pripremi novi zakon o osiguranju koji predviđa povećanje minimalno potrebnog osnivačkog kapitala, iz vlastitih sredstava smo izvršili dokapitalizaciju, te je nominalna vrijednost dionice povećana sa 260 KM na 340 KM. Tako je naš dionički kapital povećan sa 5.029.700 KM na 6.577.300 KM, što

respond to the needs of affected population during and after the floods, possible solutions for eventual future events of that kind should be sought and improved within associations of insurance companies of Federation of Bosnia and Herzegovina and Republic of Srpska.

Although the flood affected a large area of Bosnia and Herzegovina, damaged numerous production facilities and tens of thousands of housing units and severely damaged infrastructure, the impact of this disaster on the economy was not as big as we feared. The increase of export (but also of import) is followed by increase of employees which slightly reduced a number of unemployed persons. A deflation of 0.4% is recorded. The insurance industry reported a growth of the premium of 6.64%. Although we are dissatisfied with such growth, BiH remains one of the few countries in the region with continued growth of insurance premium.

Bosna reosiguranje d.d. ended the past, very difficult year (besides demonstration and flood we had two major fire damages) with satisfactory results. Although, due to various circumstances we have recorded a somewhat lower gross reinsurance premium compared to 2013 (decrease of 1.8%), our net premium increased by 4.1%. Thanks to appropriate programme of retrocession, even exposed to greater extent of losses than usual, we realized gross income of BAM 1.8 million that is 88% of the planned income. Therefore, we believe that we have achieved good results.

At the end of 2014 Bosna reosiguranje d.d. carried out denomination of its shares. The number of shares and their nominal value are modified by factor five – the number of shares from 3.869 to 19.345, and their nominal value from BAM 1,300 per share to BAM 260 per share. The main reason for this change is to facilitate the trading of the shares on the stock exchange. Considering that new forthcoming insurance law foresees increase of minimal necessary share capital, we increased the

Još jedan događaj je bio važan za nas u 2014. godini. U oktobru 2014. godine u mirovinu je otisao naš dugogodišnji direktor, gosp. Damir Lačević. Njegova karijera u osiguranju u Bosni i Hercegovini duga 37 godina je zaista izuzetna. Počeo je u Sarajevo osiguranju i uznapredovao do direktora sektora reosiguranja. 1993. godine osnovao je BH osiguranje i bio direktor, a od 1996. godine bio je član Uprave u Bosna reosiguranju. Na funkciji direktora Bosna reosiguranja proveo je puna tri mandata i započeo četvrti. I tako teška godina kakva je bila 2014. je završena uspješno, a gosp. Lačević je vodio društvo tokom najvećeg dijela te godine. Stoga taj uspjeh pripisuјemo njemu. Bosna reosiguranje je zahvalna gosp. Lačeviću za uspjehe i napredak koji smo ostvarili od 1996. godine do danas, kao i općenito za doprinos oblasti osiguranja u Bosni i Hercegovini i šire.

Uspjeh i položaj Bosna reosiguranja u protekljoj godini rezultat je uticaja i odnosa brojnih faktora. Stoga se zahvaljujemo svima koji su tom uspjehu doprinijeli, našim cedentima, dionicarima, nadzornom odboru, zaposlenicima, prijateljima i svima drugima.

capital from own resources which increased nominal value of shares from BAM 260 to BAM 340. Thus, our shareholders' equity increased from BAM 5,029,700 to BAM 6,577,300 which is above the level of capital necessary for establishment and operation of a reinsurance company provided for in the draft law.

Another event also important for us marked 2014. In October 2014, Mr. Damir Lacevic, a long-time CEO in Bosna RE, retired. His 37 years long career in insurance industry in Bosnia and Herzegovina has been extraordinary. He started in Sarajevo osiguranje and advanced to a position of Reinsurance Department Manager. In 1993, he established and managed BH osiguranje, and starting from 1996 he was a member of Bosna RE Management. At the position of CEO of Bosna RE he served complete three mandates and started his fourth one. Although tough, 2014 is completed successfully and Mr. Lacevic led the company for most of that year. Therefore, we attribute this year's success to him. Bosna RE is grateful to Mr. Lacevic for the success and progress made since 1996 to the present, as well as for his general contribution to insurance industry in Bosnia and Herzegovina and beyond.

The success and position of Bosna RE in the previous year is a result of influences and relations of many factors. Therefore we would like to thank all those who contributed to this success, to our cedents, shareholders, Supervisory Board, employees, friends and all others.

3. DRUŠTVENO - EKONOMSKI USLOVI U KOJIMA SU OSTVARENI REZULTATI BOSNA RE

Nakon 2013. godine, u kojoj je BH ekonomija počela pokazivati određene znakove oporavka, očekivalo se da u 2014. godini ona kreće nešto značajnijim stopama rasta. To se na žalost ipak nije desilo.

Godinu su prije svega obilježila dva katastrofalna događaja i to događaj velikih demonstracija i provale nasilja na ulicama Bosne i Hercegovine iz februara mjeseca 2014. godine i događaji masovnih i katastrofalnih poplava iz maja i augusta mjeseca 2014. godine.

Na žalost oba događaja imala su značajan uticaj na kompletну ekonomiju BiH uopće a posebno na industriju osiguranja i reosiguranja.

Osim navedenog 2014. godina bila je i izborna godina a po običaju izborne godine u BiH karakteriše izostanak bilo kakvih aktivnosti reformskih procesa koje su nužne da bi BiH krenula nešto ubrzanjijim koracima u pravcu izlaska iz ekonomске krize i beznađa.

Uzimajući u obzir sve prethodno navedeno, 2014. godina bi se mogla ocijeniti kao još jedna godina stagnacije BH ekonomije.

Makroekonomski pokazatelji za 2014. godinu koje objavljaju državna i entitetske službe za statistiku, kao i neke druge institucije dosta su šaroliki i potvrđuju prethodno izrečenu konstataciju o 2014. godini kao godini stagnacije BH ekonomije.

Stopa rasta industrijske proizvodnje u periodu decembar 2014. – decembar 2013. godine je negativna i iznosi -1,3%. Ovo smanjenje je prije svega posljedica pada u proizvodnji energije od 10,3%, proizvodnje kapitalnih proizvoda od 0,2%, trajnih proizvoda za široku potrošnju 0,9% i trajnih proizvoda za široku potrošnju 3,3% dok je proizvodnja intermedijarnih proizvoda zabilježila rast od 8,8% čime su prethodno navedena smanjenja samo

3. SOCIO-ECONOMIC ENVIRONMENT IN WHICH BOSNA RE ACHIEVED ITS RESULTS

After 2013, when BiH economy showed certain signs of recovery, 2014 was expected to progress at more significant growth rate. Unfortunately it did not happen.

The year was largely characterized by two catastrophic events: great demonstrations and outburst of violence on the streets of Bosnia and Herzegovina in February 2014 and mass and catastrophic floods in May and August 2014.

Unfortunately, both events significantly affected BiH economy in general, and particularly the insurance and reinsurance industry.

Besides, 2014 was a year of elections and as usual, electoral years in BiH are characterized by lack of any activities related to reform processes necessary for BiH to move faster toward exit from economic crisis and despair.

Based on the above said, 2014 could be considered as another year of stagnation of BiH economy.

Macroeconomic indicators for 2014 published by state and entities' Statistics Agencies and some other institutions, vary and support the above statement about 2014 as a year of stagnation of BiH economy.

The growth rate of industrial production for the period December 2014 – December 2013 is negative by -1.3%. This decrease is mostly the result of fall in production of electrical energy of 10.3%, production of capital goods of 0.2%, consumer goods of 0.9% and durable consumer goods of 3.3%, while the production of intermediate goods increased for 8.8% and thus only partially compensates previously mentioned decreases and gave previously mentioned average rate of decrease.

djelimično kompenzirana što je i dovelo do pomenute prosječne stope pada.

Broj zaposlenih u decembru 2014. godine u BiH iznosio je 707.725 i veći je u odnosu na isti period u 2013. godine za 2,6%. U istom periodu, broj neuposlenih osoba je pao za 1,2%.

Prosječna neto plata u decembru 2014. viša je za 0,7% u odnosu na isti period prethodne godine.

U razdoblju I-XII 2014. godine izvoz je iznosio 8 milijardi 684 miliona KM, što je za 3,6 % više nego u istom razdoblju 2013. godine, dok je uvoz iznosio 16 milijardi 199 miliona KM, što je za 6,8 % više nego u istom razdoblju prethodne godine. Pokrivenost uvoza izvozom je iznosila 53,6% što je za 2,9% manja pokrivenost uvoza izvozom nego u istom periodu prethodne godine, dok je vanjskotrgovinski robni deficit iznosio 7 milijardi 516 miliona KM.

Posebno zabrinjava činjenica da je BiH u 2014. u prosjeku zabilježila deflaciјu od 0,4% u odnosu na 2013. što nikako ne predstavlja povoljan trend za napredak ekonomije.

Informacija o visini bruto društvenog proizvoda za 2013. je podatak preuzet od Centralne banke BiH i isti je zabilježio realan rast od 2,48% u odnosu na 2012. godinu.

Prema prognozama Svjetske banke u 2014. godini se očekuje značajno manji, neznatan rast realnog GDP-a od 0,4%.

Zbog šarolikosti prethodno navedenih pokazatelja, od kojih neki kao što su zaposlenost i nezaposlenost te neto plate pokazuju pozitivne trendove dok drugi kao što su industrijska proizvodnja, vanjskotrgovinska razmjena i cijene pokazuju negativne trendove, može se ponoviti konstatacija o ekonomskoj stagnaciji u 2014. godini.

Ilustracija prethodno izrečene tvrdnje data je u narednoj tabeli kroz pregled stopa industrijske proizvodnje u BiH za 2013. i 2014. godinu. Obje godine su dane kako bi se moglo uporediti stanje na kraju 2013. i 2014. godine.

The number of employees in BiH in 2014 was 707,725 that is by 2.6% more compared to the same period of 2013. The number of unemployed for the same period decreased for 1.2%.

The average net salary in the December 2014 is by 0.7% higher than in the same period of previous year.

The export in the period I-XII 2014 amounted BAM 8 billion 684 million, by 3.6% more than in the same period of 2013, while import amounted BAM 16 billion 199 million, by 6.8% more than in the same period of previous year. Import/Export ratio was 53.6% and is by 2.9% less than the ratio in the same period of previous year while foreign trade commercial deficit amounted BAM 7 billion 516 million.

An issue of particular concern is a fact that BiH in 2014 recorded in average a deflation of 0.4% compared to 2013, which is in no way favorable for economy improvement.

The information on gross domestic product is data given by Central Bank of BiH and shows actual growth of 2.48% compared to 2012.

According to World Bank prognosis, significantly lower, negligible growth of actual GDP of 0.4% is expected in 2014.

Based on variety of mentioned indicators, some of which (employment and unemployment, net salaries) show positive trends while others (industrial production, foreign trade and prices) show negative trends, we could repeat our conclusion on economic stagnation in 2014.

The illustration of aforesaid statement is given in the next table through the review of the rates of industrial production in BiH in 2013 and 2014. Both years are stated as to compare the results at the end of 2013 and 2014.

Tabela 1

	XII 2013	XII 2013	I-XII 2013	XII 2014	XII 2014	I-XII 2014
	XI 2013	XII 2012	I-XII 2012	XI 2014	XII 2013	I-XII 2013
F BH	98,70	107,70	107,40	97,47	97,91	100,11
R SRPSKA	100,20	104,70	104,10	98,20	99,80	100,60
BH	98,70	106,00	106,70	97,89	98,70	100,20

Uporedba I-XII 2014. u odnosu na I-XII 2013. pokazuje stopu rasta industrijske proizvodnje na nivou BiH od svega 0,2%. Ova stagnacija je prije svega posljedica pada u proizvodnji energije od 10,3%, proizvodnje kapitalnih proizvoda od 0,2%, netrajnih proizvoda za široku potrošnju 0,9% i trajnih proizvoda za široku potrošnju 3,3% dok je proizvodnja intermedijarnih proizvoda zabilježila rast od 8,8% čime su prethodno navedena smanjenja u određenoj mjeri kompenzirana.

I pored opisane stagnacije BH ekonomije u 2014. godini tržište osiguranja Bosne i Hercegovine u 2014. godini zabilježilo je ukupan rast od 6,64% u odnosu na 2013. godinu. Neživotne vrste osiguranja imale su rast od 4,75%, dok su vrste osiguranja života i u 2014. godini zabilježile relativno visoku stopu rasta od 14,75%. U Tabeli 2 prikazano je ostvarenje premije osiguranja u BiH, sa podacima o ostvarenju društava za osiguranje registriranih u jednom entitetu, na tržištu drugog entiteta. Podaci iz tabele pokazuju da su društva registrirana u R Srpskoj ostvarila relativno visok rast premijskog prihoda od 11,04%. Društva iz F BiH su imala značajno manji rast koji je iznosio 5,05%. Ukoliko se promatraju entitetska tržišta osiguranja, onda rast premije osiguranja na tržištu F BiH iznosi 6,24%, a na tržištu R Srpske 7,58%. Dosta visoki rast premije životnih vrsta osiguranja (14,75%), je svakako dobar, ali za Bosna RE je u ovom trenutku važniji rast premije osiguranja neživotnih vrsta osiguranja koji iznosi 4,75%. Nažalost, vrste osiguranja koje su uobičajeno predmet reosiguranja i to prije svega na tržištu Federacije BiH bilježe pad u odnosu na 2013. godinu. Tako vrsta osiguranje nezgode na tržištu BiH bilježi pad od 0,04% dok je taj pad

Table 1

The comparison of I-XII 2014 and I-XII 2013 shows the growth rate of industrial production at BiH level of only 0.2%. This stagnation is basically a consequence of decrease in electrical energy production of 10.3%, production of capital goods of 0.2%, consumer goods of 0.9%, durable consumer goods of 3.3%, while the production of intermediate goods increased for 8.8% and in that way, to some extent, compensated mentioned decreases.

Despite mentioned stagnation of BiH economy in 2014, the insurance market in Bosnia and Herzegovina in 2014 recorded total growth of 6.64% compared to 2013. Non-life insurance recorded the growth of 4.75% while Life assurance recorded rather high growth rate of 14.75%. The Table 2 shows realization of insurance premium in BiH, with results by insurance companies registered in one entity and realized at the market of the other. The data from the table indicate that companies registered in R Srpska realized relatively high growth of premium income of 11.04%. The companies from F BiH recorded significantly lower growth of 5.05%. Considering entities' insurance markets, the growth of insurance premium on F BiH market is 6.24% and on R Srpska market is 7.58%. The significant growth of life assurance premium (14.75%) is surely satisfactory, but for Bosna RE at this moment, the growth of Non-life insurance premium of 4.75% is much more important. Unfortunately, the insurance lines of business which are ordinary reinsured particularly on F BiH market, recorded a fall compared to 2013. So the Accident in the BiH market recorded a fall of 0.04% while this fall in Federation of BiH is 3.1%, Motor Hull insurance line recorded a fall

u Federaciji BiH 3,1%, vrsta osiguranje auto-kaska bilježi pad od 0,3% na tržištu BiH dok je taj pad na tržištu Federacije BiH 1,56%, vrsta osiguranje imovine od požara na tržištu BiH bilježi rast od 3,09% ali na tržištu Federacije BiH bilježi pad od 0,86% kao i vrsta osiguranja ostala imovina koja na tržištu BiH bilježi rast od 10,81% dok na tržištu Federacije BiH bilježi pad od 1,87%. Ukupan indeks premije na navedene 4 vrste osiguranja na tržištu BiH je 2,38% i pozitivan je, ali su navedene vrste osiguranja u Federaciji BiH ostvarile pad od 1,85%.

Nažalost, i dalje se nastavlja trend veoma sporog rasta učešća premije osiguranja u BDP-u. Kada bi se ovi podaci uporedili sa zemljama iz okruženja ili nekim drugim europskim zemljama onda bi se ponovo dobio rezultat

Napomena: BDP za 2014. i 2015. godinu je dan na bazi procjena.

Sva prethodno navedena kretanja imala su uticaja i na ostvarenje premije reosiguranja u Bosni i Hercegovini, kao i premijskog prihoda Bosna RE-a. Nažalost, ukupno ostvarena premija reosiguranja nije pratila rast premijskog prihoda, niti u BiH, niti u F BiH. Dosta razloga je uticalo na ovakva kretanja.

- Prvo, kako je već i navedeno, u strukturi ostvarene premije osiguranja došlo je u Federaciji BiH do pada u onim vrstama osiguranja koje čine skoro 70% premijskog prihoda Bosna RE-a. Ovo se prije svega odnosi na vrste 01-nezgoda, 03 – auto-kasko, 08 – požar i 09 – ostala osiguranja imovine.
- Naravno, bitan uticaj na ukupan premijski prihod ima i činjenica da su cedenti

the rest of Europe, BiH citizens spend the least money on insurance.

The Table 3 shows participation of insurance premium in Bosnia and Herzegovina GDP.

Table 3

INSURANCE PREMIUM IN RELATION TO GDP AND INSURANCE PREMIUM PER CAPITA

Note: GDP for 2014 and 2015 is estimation.

All mentioned developments influenced realization of reinsurance premium in Bosnia and Herzegovina and premium income of Bosna Re. Unfortunately, the total realized reinsurance premium has not followed the growth of premium income neither in BiH nor in F BiH. There are many reasons for such results.

- First, as we have already mentioned, within the structure of realized insurance premium in Federation of BiH, a decrease is recorded in those insurance lines that represent almost 70% of premium income of Bosna RE. This primarily refers to the following lines of business: 01 - Accident, 03 – Motor Hull, 08 - Fire, and 09 – Property Other.

- Bosna RE izgubili nekoliko fronting poslova i fakultativnih poslova.
- Bitan uticaj na ostvareni premijski prihod Bosna RE-a imalo je i neuobičajeno prekidanje 3 ugovora o reosiguranju na polovini 2014. godine.
- Bitan uticaj na ostvarenje premijskog prihoda Bosna RE u 2014. godini imalo je i odustajanje Bosna RE od određenih neprofitabilnih poslova iz inozemstva u 2014. godini.
- Svakako i nadalje važi konstatacija da se osiguranje promatra kao trošak koji na svaki način treba izbjegći ili smanjiti na minimum, bez obzira na stvarnu eksponiranost, posebno u kriznim vremenima. Ovo potvrđuju i činjenice da je još uvijek najveći dio bosanskohercegovačke imovine neosiguran, ili je osiguran na sume koje ne odgovaraju stvarnim vrijednostima, bez obzira radi li se o privatnom ili državnom vlasništvu.
- Konkurenčija između društava za osiguranje svela je premijske stope na minimalne, a odobreni popusti sežu čak i do 75% premije.
- Podrška industriji osiguranja od strane državnih institucija je veoma mala, tako da se industrijom veoma teško nosi sa masom kontradiktornih propisa, koji je sve više opterećuju.

Treba napomenuti da je jedan broj društava za osiguranje svjestan da rad sa minimalnim cijenama i maksimalnim popustima vodi prema samouništenju tržišta osiguranja. Svjesni ove činjenice pokušavaju raditi na ispravan način, ali se veoma brzo, zbog gubitka osiguranika, moraju vratiti poslovanju koje im omogućava da budu cjenovno konkurentni onima koji po svaku cijenu pokušavaju dobiti osiguranika. Naravno, ovdje bi agencije za nadzor osiguranja trebale imati glavnu ulogu u sprječavanju potpunog urušavanja tarifa premija i uslova osiguranja.

- Of course, important influence on total premium income has the fact that Bosna RE's cedents lost several fronting and facultative businesses.
- A significant influence on Bosna RE premium income had unusual termination of 3 insurance treaties in the middle of 2014.
- The withdrawal of Bosna RE from certain non-profit foreign businesses also affected Bosna RE premium income in 2014.
- The conclusion that insurance cover is in BiH considered as an expenditure to be avoided in every possible way or decreased to minimum, no matter the actual exposure particularly in the time of crisis, still stands. It is confirmed in a fact that most of BiH property is not insured or is insured to sums not corresponding to real values, regardless is it private or state owned.
- The competition among insurance companies resulted in minimal premium rates and in non-claims discounts of almost 75% of the premium.
- The support of Governmental Institutions to insurance business is inadequate and therefore it hardly copes with a mass of contradictory regulations that increasingly burden its activities.

It must be noted that some insurance companies are aware that business involving minimal prices and maximum discounts leads to self-destruction of insurance market. Being aware of this fact they try to operate as it is regulated but very soon, due to loss of clients they have to return to old practice that enables them to be competitive to those trying to obtain clients at any price. Of course, the Insurance Supervisory Agency should play the main role in preventing the total collapse of premium rates and insurance terms and conditions.

Štete isplaćene u toku 2014. godine na tržištu BiH očekivano su, uslijed februarskih demonstracija i majske katastrofalnih poplava, imale ekstremne stope rasta u odnosu na štete isplaćene u 2013. godini. Tako isplaćene štete na tržištu osiguranja BiH rastu po stopi od 24,16% (F BiH 14,26%, RS 56,87%). Ono što je posebno nepovoljno po tržište osiguranja BiH jeste činjenica da su vrste osiguranja koje su zabilježile pad ili vrlo skroman rast premijskog prihoda istovremeno zabilježile ekstreman rast isplaćenih šteta. Isplaćene štete osiguranja po vrstama 03, 08 i 09 na tržištu osiguranja u BiH imale su rast od 72,05%. Ekstreman rast isplaćenih šteta osiguranja po navedenim vrstama na tržištu osiguranja u BiH logično je propaćen i rastom isplaćenih bruto šteta reosiguranja po navedenim vrstama i taj rast u 2014. godini u odnosu na 2013. godinu iznosi 56,08%. Naravno, ovdje nisu uključene rezervirane štete, što svakako povećava iznos obaveza društava za osiguranje i Bosna RE-a.

Međunarodno tržište osiguranja u 2014. godini nije bilo posebno turbulentno, uprkos štetama uzrokovanim prirodnim katastrofama, koje svake godine pogode određene dijelove svijeta i reosiguravače. Programi za pokriće katastrofalnih rizika djelimično su bili pogodjeni velikim štetama pa i štetama iz regije jugoistočne Europe. Ipak, katastrofalne štete u različitim dijelovima svijeta pa tako i one iz regije jugoistočne Europe nisu imale negativnih uticaja na fondove reosiguravača. I nadalje cijelokupno tržište pomno prate rejting kuće koje i svaku najmanju promjenu registruju i bilježe veći ili manji rejting za osiguravača, odnosno reosiguravača. Ovakva situacija industriju osiguranja primorava na stalnu kontrolu preuzetih rizika do najmanjeg detalja. Pri tome, nastavlja se trend povećanja kapitala u osiguranju i reosiguranju. U svakom slučaju, dešavanja na međunarodnom tržištu reosiguranja itekako se odražavaju na poslovanje Bosna RE-a.

The claims settled in 2014 at BiH market, as it was expected after demonstration in February and floods in May extremely increased compared to the claims paid in 2013. So, the claims settled at the BiH insurance market grew at the rate of 24.16 (F BiH 14.26%, RS 56.87%). The issue that is particularly unfavourable for the BiH insurance market is the fact that those insurance lines that recorded decrease or modest increase of premium income at the same time recorded extreme growth of the claims paid. The claims paid under 03, 08 and 09 insurance lines recorded at BiH insurance market a growth of 72.05%. Such extreme growth of claims paid for the mentioned insurance lines logically resulted in increased gross reinsurance claims paid for them and that increase in 2014 compared to 2013 is 56.08%. Of course, this does not include claim reserves which certainly increase the liabilities of the insurance companies and Bosna RE.

The international insurance market in 2014 was not so turbulent in spite of losses after natural disasters that hit certain parts of the world and reinsurers. The programs covering catastrophic risks were partially affected by great losses including the losses occurred in Southeast Europe. However, catastrophic losses in different parts of the world and those occurred in Southeast Europe did not negatively influenced the reinsurers' funds. The overall market is still under the close surveillance of rating agencies that detect even the slightest changes and accordingly downgrade or upgrade the insurers and reinsurers ratings. Such situation forces the insurance industry to constant detailed control of accepted risks. At the same time the trend of capital increase in insurance and reinsurance maintains. Anyway, the movements at international reinsurance market definitely reflect on Bosna RE business activities.

Iz svega navedenog može se zaključiti da je 2014. godina bila jedna od najtežih poslijeratnih za tržište osiguranja BiH. Ovakva situacija na tržištu osiguranja u BiH neminovno se u određenoj mjeri odrazila i na poslovanje Bosna RE u 2014. godini. Ipak, bez obzira na situaciju sa kojom se Bosna RE susrela vezano za katastrofalne štete uzrokovane februarskim demonstracijama i majskim i avgustovskim poplavama kada je u pitanju strana šteta, kao i činjenice pomenutog neuobičajenog otkazivanja određenih ugovora o reosiguranju polovinom 2014. godine kada je u pitanju strana premije, Bosna RE je uspjela i 2014. godinu završiti relativno uspješno. U 2014. godini Bosna RE jeste zabilježila mali pad bruto premijskog prihoda u odnosu na 2013. godinu ali je istovremeno kao posljedica prije svega dugogodišnje odgovorne politike u pogledu retrocesije sa jedne strane i uz maksimalnu kontrolu troškova s druge strane izbjegnut udar na kapital pri čemu je ostvarena bruto dobit od preko 1,8 miliona KM. U godini katastrofalnih šteta koje se prema dostupnoj evidenciji dešavaju jednom u 120 godina, ostvaren rezultat poslovanja u 2014. godini može se smatrati izuzetnim uspjehom.

Considering all stated, it could be asserted that 2014 was almost the most difficult year for the insurance market in BiH after the war. Such situation in BiH insurance market reflected in certain extent to Bosna RE business results in 2014. However, despite the situation Bosna RE faced in relation to catastrophic losses as a consequence of demonstration in February and floods in May and August on the loss side and already mentioned unusual termination of some reinsurance treaties mid 2014 on the premium side, Bosna RE accomplished 2014 relatively successfully. It is true that in 2014 Bosna RE recorded a slight fall of gross premium income comparing to 2013, but at the same time as a result of its, primarily rational, longstanding policy in relation to the retrocession on one side and maximum control of costs on the other side, avoided the impact on the capital and at the same time realized gross profit of over BAM 1.8 million. In the year of catastrophic losses that, according to available data, occur once in 120 years, the result recorded in 2014 can be considered a great success.

4. PREMIJA I ŠTETE REOSIGURANJA

Pregled ostvarene premije i plaćenih šteta reosiguranja u 2014. godini dan je u tabeli 4.

Tabela 4

KM / BAM	2011	2012	2013	2014
Premije reosiguranja / Reinsurance Premium	54.004.476	53.829.602	52.202.372	51.282.318
Štete reosiguranja / Reinsurance Losses	25.154.868	22.481.921	23.827.292	33.304.685

Visina ostvarene premije reosiguranja i šteta reosiguranja ovisi od velikog broja faktora. Svakako, jedan od najuticajnijih je kretanje premija i šteta osiguranja na tržištu osiguranja BiH, sa kojeg dolazi preko 80% premije koju ostvari Bosna RE.

Drugi veoma važan faktor je broj ugovora o reosiguranju, struktura i uslovi tih ugovora. Broj ugovora o reosiguranju predstavlja pokazatelj o aktivnostima koje Bosna RE provodi, kao i potencijalu za ostvarenje premije reosiguranja i naravno eksponiranosti, odnosno potencijalne izloženosti Bosna RE reosiguranim rizicima. Međutim, na malom tržištu kao što je bosanskohercegovačko tržište osiguranja, na kojem djeluje 24 društava za osiguranje, broj ugovora je jedan od pokazatelja pokrivenosti, odnosno zaštite tržišta putem reosiguranja. Broj ugovora zaključenih u 2014. godini nešto je veći od broja ugovora zaključenih za 2013. godini. Ovaj rast broja zaključenih ugovora o reosiguranju s jedne strane jeste rezultat zaključenja određenih potpuno novih ugovora o reosiguranju ali je više posljedica drugačijeg načina prikazivanja broja zaključenih ugovora o reosiguranju. Proporcionalni ugovori o reosiguranju su i nadalje prevladavajući, što je karakter nerazvijenih i malih tržišta osiguranja u koje spada i tržište BiH. Treba napomenuti, kada su u pitanju neproporcionalni ugovori, da je prije nekoliko godina Bosna RE napravila program za pokriće domaće AO i da su taj program kupila gotovo sva društva za osiguranje iz BiH koja se bave ovom vrstom osiguranja

4. REINSURANCE PREMIUM AND CLAIMS

The Table 4 gives the review of reinsurance premium collected and reinsurance claims settled in 2014.

Table 4

KM / BAM	2011	2012	2013	2014
Premije reosiguranja / Reinsurance Premium	54.004.476	53.829.602	52.202.372	51.282.318
Štete reosiguranja / Reinsurance Losses	25.154.868	22.481.921	23.827.292	33.304.685

A number of factors influence the amount of recorded reinsurance premium and claims. Certainly, one of the most influencing are movements of insurance premium and claims at BiH insurance market from which Bosna RE collects over 80% of its premium.

A second important factor is a number of reinsurance treaties and their structure and terms and conditions. The number of reinsurance treaties indicates the activities of Bosna RE and its capacity for realization of the reinsurance premium and of course, exposure i.e. potential exposure of Bosna RE to reinsured risks. However, for the small market as it is BiH insurance market with 24 insurance companies participating on it, the number of treaties is one of indicators of coverage i.e. protection of the market by reinsurance. The number of treaties concluded in 2014 is somewhat larger than in 2013. The growth of treaties concluded is on one side a result of certain number of newly concluded reinsurance treaties but is much more a result of a different presentation of number of concluded treaties. The proportional reinsurance treaties still prevail which is a characteristic of undeveloped and small insurance markets as it is BiH insurance market. It should be noted that relating to non-proportional treaties, a few years ago Bosna RE made a programme for domestic MTPL coverage which was bought by almost all insurance companies (19 of them) operating in that line of insurance.

i to njih 19. Takođe, uvjeti ugovora za 2014. godinu su najvećim dijelom ostali nepromijenjeni. Kao i u prethodnim godinama, cedenti su najveći pritisak vršili u dijelu ugovora koji se odnosi na provizije. Dobrim dijelom to je razumljivo, jer društva za osiguranje žele pokriti svoje troškove, a i ponešto "zaraditi", posebno u slučajevima kada nemaju mnogo šteta. S obzirom da je Bosna RE došla do krajnje granice mogućnosti vezanih za visinu provizija reosiguranja, daljnje pomjeranje ovih granica naviše je gotovo nemoguće. Stoga i nije čudno što su neto troškovi provizija najveći trošak koji je imala Bosna RE u 2014. godini.

Štete reosiguranja / Reinsurance Losses	23.818.447	33.304.685	139,83

Ostvarena premija reosiguranja u 2014. godini iznosi KM 51.282.318, što je za 1,76% manje od ostvarenja za 2013. godinu i 3,42% manje u odnosu na plan za 2014. godinu. Kretanje premije reosiguranja, ostvarene u Bosna RE u posljednjih 6 godina dano je u Tabeli 6.

The terms and conditions of the treaties for 2014 mainly remained unchanged. As in previous years, the greatest pressure of the clients was directed to a section of the treaty relating to the commission. This is largely understandable since insurance companies wish to cover their expenses and "earn" a little, particularly if they do not have many losses. Since Bosna RE reached the ultimate limit of its capacity in relation to the amount of reinsurance commission, further increase of these limits upwards is almost impossible. Therefore, it is not surprising that the net commission costs are the highest costs that Bosna RE had in 2014.

Table 5

The reinsurance premium earned in 2014 amounts BAM 51,282,318 for 1.76% less than earned in 2013 and for 3.42% less than planned for 2014. The Table 6 shows tendencies in reinsurance premium realized by Bosna RE in the last six years.

Trend rasta šteta je i nadalje brži od trenda rasta premije. U periodu danom u grafikonu indeks rasta šteta iznosi 4.934, a premija 2.157. Treba napomenuti da su oscilacije u pogledu plaćenih šteta ponekada dosta visoke što je posebno uočljivo ako se posmatraju 2014. i 2013. godina. Ovakva oscilatorna kretanja nisu rezultat neke zakonomjernosti. Jednostavno, nekoliko godina je bilo pogodeno sa jednom ili dvije veće štete, ili kakav je slučaj sa 2014. godinom, katastrofalnim događajem, što dovodi do naglog rasta ili pada šteta. Mali i nehomogeni portfelji, kao što je portfelj Bosna RE, su podložni ovakvim uticajima. Tako i 2011. i 2014. godina bilježe najveće skokove u porastu šteta reosiguranja, što je kod 2011. godine rezultat ostvarenja samo dvije "velike" štete a u slučaju 2014. godine posljedica ostvarenja katastrofnog događaja. Neophodno je napomenuti da stvarno stanje šteta za 2014. godinu čine isplaćene i rezervirane štete. Na dan 31.12.2014. godine bruto rezervirane štete (prijavljene i IBNR) iznose KM 58,33 miliona, a neto štete KM 12,07 miliona.

Svi viškovi rizika, preko kapaciteta Bosna RE, plasiraju se na međunarodno tržište reosiguranja. Ovaj dio rizika prati i adekvatna premija za retrocesiju. Neto premija reosiguranja za 2014. godinu iznosi KM 26,62 miliona. Podaci o zadržanoj premiji reosiguranja mogu se vidjeti iz Tabele 8 i Grafikona 3.

The tendency of faster growth of losses over the premium continues. In the period given in the graph, losses growth index is 4.934 and premium growth index is 2.157. It should be noted that oscillations of losses paid are sometimes rather high particularly if consider 2014 and 2013. Those oscillations are not the result of a pattern. Simply, the occurrence of one or two larger losses, or, as in 2014, a catastrophic event, results in sudden growth or fall of losses. A small and inhomogeneous portfolios, as it is Bosna RE's, are sensitive to such influences. Thus, 2011 and 2014 recorded the biggest growths of reinsurance losses; in 2011 as a result of only two "great" losses and in 2014 as a result of a catastrophic event. It needs to be mentioned that actual amount of losses in 2014 includes claims and provision for claims paid and reserved. The gross provision for claims in 2014 (reported and IBNR) as at 31 December 2014 amount BAM 58.33 million and net claims BAM 12.07 million.

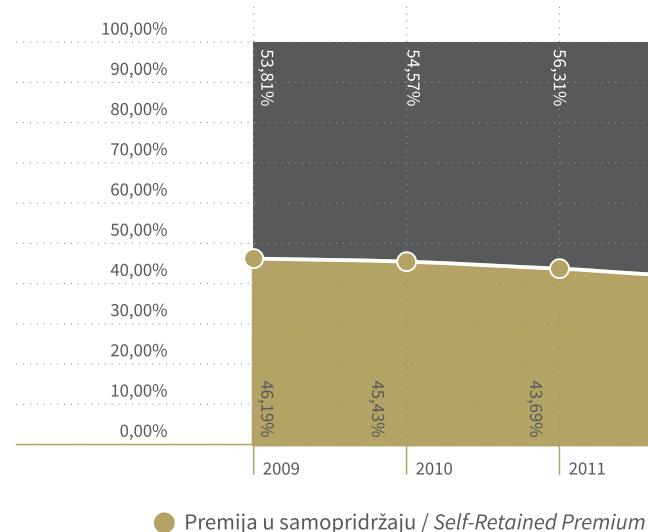

Bosna RE places all risks that exceed its capacity to international reinsurance market. This portion of risk is accompanied by payment of adequate retrocession premium. Net reinsurance premium in 2014 amounts BAM 26.62 million. The data on self-retained reinsurance premium are presented in the Table 8 and Graph 3.

Neto premija reosiguranja, odnosno premija reosiguranja zadržana u samopridržaju Bosna RE je u 2014. godini za 4,10% veća od neto premije ostvarene u prethodnoj godinu. Ovo znači da od ukupno ostvarene premije reosiguranja, Bosna RE zadržava 51,91%, a na ime retrocesije plaća 48,09%. Ovo povećanje ostvareno u 2014. godini je rezultat daljeg prestrukturiranja i optimizacije ugovora o retrocesiji. Ovo je rezultat kontinuiranih analiza izloženosti i nastojanja Bosna RE da se vlastiti kapital koristi na najoptimalniji mogući način. Za ovo je korišten Metarisk, softver putem kojeg je modelirana optimalna zaštita portfelja Bosna RE. U svakom slučaju, politika potpune sigurnosti Bosna RE u pogledu obaveza po osnovu ugovora o reosiguranju je i nadalje na prvom mjestu. Stoga je i premija retrocesije još uvijek dosta visoka. Uporedni indeksi rasta ukupne premije reosiguranja, premije retrocesije i zadržane premije, dani su u Grafikonu 4.

U promatranom periodu premija reosiguranja porasla je za preko 21 puta, premija retrocesije za 13 puta a zadržana premija za 54 puta.

Net reinsurance premium i.e. the reinsurance premium self-retained by Bosna is in 2014 by 4.10% higher than net premium realized in previous year. This means that out of total realized premium, Bosna RE retains 51.91% and pays 48.09% for reinsurance. This growth in 2014 is a result of further restructuring and optimizing of reinsurance treaties through continuous analyses of exposures and Bosna RE's efforts to use its capital in the most optimal way. For this purpose we applied Metarisk, software for modelling optimal protection of Bosna RE portfolio. Anyway, Bosna RE's policy of providing complete security in respect of its contractual obligations is still priority. Therefore, the reinsurance premium is still rather high. The comparative growth indexes of total reinsurance premium, reinsurance premium and self-retained premium are presented in the Graph 4.

In the period concerned, the reinsurance premium increased over 21 times, reinsurance premium over 13 times and self-retained premium by 54 times.

Učešće šteta iz retrocesije u ukupnim štetama Bosna RE u 2014. godini najviše je u posljednjih 6 godina i posljedica je s jedne strane katastrofalne godine koju smo imali u pogledu šteta a s druge strane već pomenu-tih nastojanja Bosna RE da optimizira svoju retrocesijsku zaštitu.

Struktura premije reosiguranja, ostvarene u 2014. godini nije značajnije izmijenjena u odnosu na prethodne godine. Treba napomenuti da je učešće vrsta 03 (auto-kasko), 10 (AO), 13 (opća odgovornost), 16 (šomaž) kao i vrste 19 (život), povećano u odnosu na prethodnu godinu. Razlozi za povećanje učešća ovih vrsta su sa jedne strane posljedica opštег rasta premije osiguranja kakav je slučaj sa vrstama 10 i djelimično vrstom 19 a s druge strane zaključivanja novih i restrukturiranja postojećih ugovora o reosiguranju kakav je slučaj sa vrstama 03, 13, 16 i djelimično 19. Ono što je posebno uočljivo je smanjenje premijskog prihoda u vrstama 08 i 09 i to za 7,85% odnosno 12,94% u odnosu na 2013. godinu. Ovo smanjenje je dijelom posljedica gubitka nekih fronting poslova, dijelom smanjenja premijskih stopa, koje ponekad padaju i ispod granice od 0,1%, a u dobroj mjeri i odustajanja Bosna RE od određenih poslova iz inozemstva koji su na granici profitabilnosti.

The participation of retrocession losses in total Bosna RE losses in 2014 is at the highest level in the last six years as a consequence of a catastrophic year in relation to losses, on one side, and, as already mentioned, of Bosna RE efforts to optimize its retrocession protection.

The structure of reinsurance premium recorded in 2014 has not notably changed compared to previous years. It should be noted that participation of the insurance lines 03 (Motor Hull), 10 (MTPL), 13 (General Liability), 16 (Loss of Profit) as well as 19 (Life) increased compared to previous year. The increase of participation of these insurance lines is, on one side, the result of general growth of insurance premium as in case of the insurance line of business 10 and partially of 19 and, on the other side, entering new and restructuring existing reinsurance treaties as in case of the lines 03, 13, 16 and partially 19. What is particularly noticeable is the decrease of premium income in the lines 08 and 09 for 7.85% and 12.94% respectively compared to 2013. This decrease is partially a result of loss of some fronting businesses and partially a result of decrease in premium rates that sometimes fall below the limit of 0.1%, and in certain extent a result of Bosna RE's withdrawal from certain foreign businesses which were at the edge of profitability. The

Kontrola primjene odobrenih tarifa premija i dalje je slaba, što u kombinaciji sa bespotrednom konkurentskom borbotom na tržištu osiguranja dovodi do konstantnog pada premijskih stopa a time i policirane premije za isti portfelj. Ovo naravno rezultira sve lošijim kvotama šteta što se neminovno odražava i na sve lošije rezultate ugovora o reosiguranju. Gubitak industrije osiguranja po ovom osnovu može se procijeniti na više 30% premijskog prihoda.

Pregled strukture premije reosiguranja dan je u Tabeli 10.

control of approved premium rates application is still insufficient, which, in combination with severe competition at the insurance market result in continuous fall of premium rates and consequently a fall of written premium for the same portfolio. This, of course, results in unfavourable loss ratio and therefore certainly reflects on the results of reinsurance treaties. The loss of insurance industry on this ground is estimated to more than 30% of premium income.

The review of reinsurance structure is given in the Table 10.

The structure of gross reinsurance losses paid in 2014 significantly differs compared to those paid in 2013. In overall structure of gross reinsurance losses paid in 2014, the participation of losses under 08 (Fire) insurance line of business increased to 42.55% as a direct result of catastrophic events in 2014, while the participation of other insurance lines in the structure of losses, primarily of 03 (Motor Hull) significantly decreased.

Pad premije reosiguranja u zemlji, koji je u odnosu na opći pad premije u vrstama osiguranja koje se dominantno reosiguravaju u BiH minimalan, rezultat je uopće pada premije osiguranja, što je ranije objašnjeno, kao i gubitkom nekoliko fronting poslova te neobičajenim raskidom nekoliko ugovora o reosiguranju polovinom 2014. godine. Sa druge strane, smanjenje premije reosiguranja iz inozemstva posljedica je odustajanja od određenih poslova iz inozemstva koji su bili na

A decrease of reinsurance premium earned at home which is minimal, compared to general fall of premium in insurance lines usually reinsured in BiH, is a result of fall of insurance premium in general, which we have clarified earlier and a result of loss of several fronting businesses and unusual termination of some reinsurance treaties in the middle of 2014. On the other side, fall in reinsurance premium earned abroad is a result of withdrawal from certain businesses from abroad which were at

Bosna RE je i nadalje jedini registrirani reosiguravač u Bosni i Hercegovini. Davanje licence za rad u reosiguranju prije par godina Dunav osiguranju, Banja Luka, i to samo za određene vrste osiguranja, nije bilo uspješno i nije se ponovilo. Nažalost i nadalje se reosiguranje u R Srpskoj radi na osnovu izdanih odobrenja, što nije u skladu sa zakonom. Ova praksa mogla bi postati dosta veliki problem, posebno uzimajući u obzir činjenicu da je Jahorina osiguranje, koja je krajem 2014. godine i zvanično promjenila ime u Wiener Osiguranje, dobila odobrenje za reosiguranje kod Wiener Re, Beograd. S druge strane zvanična izmjena imena Jahorina Osiguranja dovodi sada i u formalnom smislu ostale osiguravače u Republici Srpskoj u situaciju da eventualnim zaključivanjem ugovora o reosiguranju sa Wiener Re zaključuju posao sa direktnim konkurentom na domaćem tržištu i ta činjenica može za Bosna RE predstavljati povoljnu okolnost. Prema dostupnim pokazateljima urađena je tabela 13, u kojoj je dan pregled kretanja premije osiguranja i reosiguranja u BiH i F BiH. Iako su podaci o premiji reosiguranja drugih reosiguravača nepouzdani, ipak

Bosna Re is still the only registered reinsurance company in Bosnia and Herzegovina. Granting Dunav Osiguranje a.d. Banja Luka a reinsurance licence but only for several lines of insurance business was not a success and it has not repeated. Unfortunately, reinsurance operations in Republic of Srpska are still based on issued licences, which do not comply with law regulations. Such a practice could impose a great problem particularly after Jahorina Osiguranje that officially changed its name to Wiener Osiguranje at the end of 2014, got a permission to reinsure with Wiener Re, Belgrade. On the other side, the official change of the name by Jahorina osiguranje, formally put other insurers in Republic of Srpska in a situation that if they enter into reinsurance treaty with Wiener Re they conclude the business with direct competitors at domestic market and this fact could be advantageous for Bosna RE. The Table 13, based on available data, presents the results of insurance and reinsurance premium in BiH and F BiH. Although data provided by other reinsurers are not reliable, it is sure that at least 15%

je sigurno da najmanje 15% ukupne premije reosiguranja sa BiH tržišta osiguranja pripada drugim društvima za reosiguranje.

NAPOMENA 1: Pouzdani podaci o premiji reosiguranja drugih društava za osiguranje koji rade na tržištu BiH ne postoje. Navedeni iznosi su računati na osnovu pretpostavki i dostupnih informacija. Stoga navedene iznose treba promatrati sa određenom rezervom.

Iz prethodne tabele može se vidjeti da su svi procenti učešća premije reosiguranja u premiji osiguranja u F BiH i u BiH u kontinuiranom padu još od 2011. godine. Razlog ovakvih kretanja je u smanjenju obima reosiguranja u društvima za osiguranje, strukturi portfelja osiguranja, pokušajima štednje u svim aktivnostima osiguravača pa tako i aktivnostima reosiguranja itd.

Table 13

PARTICIPATION OF REINSURANCE PREMIUM IN TOTAL INSURANCE PREMIUM IN BIH AND F BiH-BAM

The table above indicates that percentage of participation of reinsurance premium in the insurance premium recorded in F BiH and BiH has a trend of continuous fall as back from 2011. It is caused by decrease of extent of reinsurance in insurance companies, by the structure of insurance portfolio, as a result of insurance companies' efforts to save in all activities and thus in reinsurance as well.

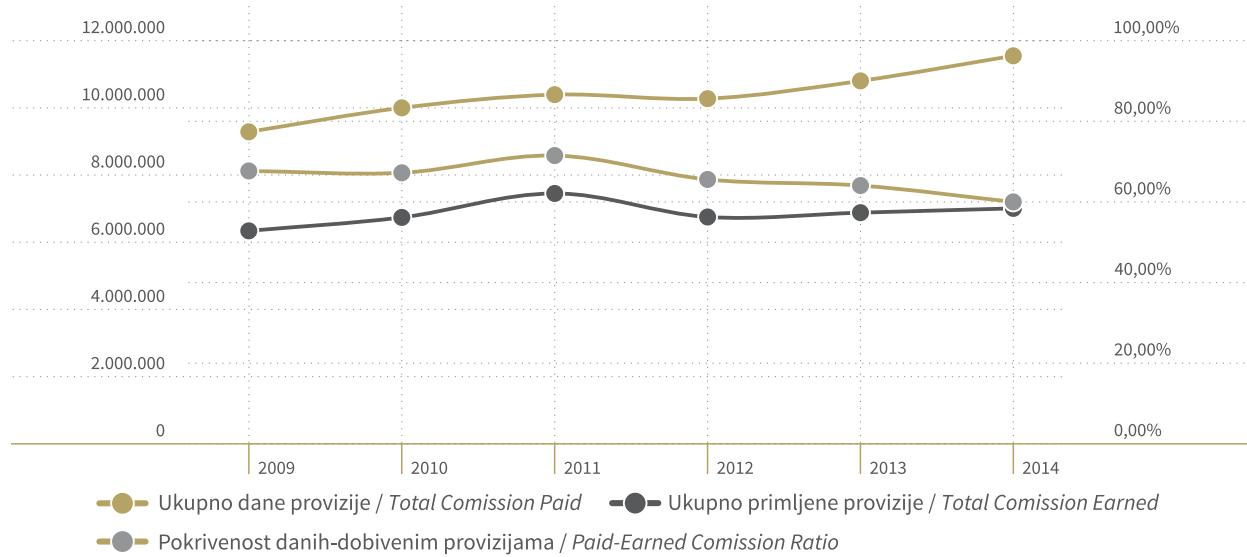

5. PROVIZIJE REOSIGURANJA

Pregled plaćenih provizija i provizija dobitvenih iz retrocesije dan je u tabeli 14. i grafikonu 8.

Grafikon 8

Provizija iz retrocesije za 2014. godinu iznosi 6,98 miliona i veća je od ostvarene provizije u 2013. godini za 1,29%. Istovremeno, dane provizije su povećane za 7,28% u odnosu na 2013. godinu tako da su neto provizije Bosna RE porasle za 17,81% u odnosu na 2013. godinu. Ovo je procijep u kojem se nalazi Bosna RE i koji nastaje zbog stalnog pritiska cedenata za povećanjem provizija. Provizije reosiguranja su najveći trošak koji Bosna RE ima u okviru svoga poslovanja. Njihov cilj je da kroz povrat dijela premije reosiguranja cedenti Bosna RE pokriju svoje troškove preuzimanja. Stoga postoji izuzetno jak pritisak za stalnim povećanjem provizija od strane cedenata, što predstavlja veliki problem za Bosna RE.

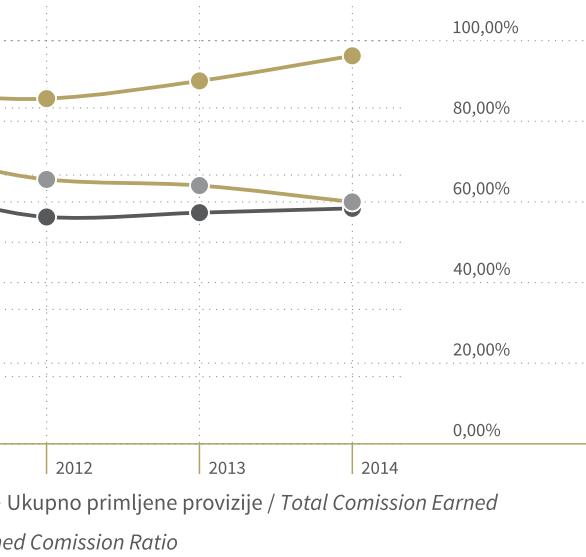

5. REINSURANCE COMMISSION

The review of total commission paid and total commission earned is given in the Table 14 and Graph 8.

Graph 8

The reinsurance commission in 2014 amounts 6.98 million, by 1.29% more than commission earned in 2013. At the same time commissions paid increased by 7.28% compared to 2013 so the net commission of Bosna RE increased by 17.81% compared to 2013. This is a source of trouble for Bosna RE which is a result of permanent pressure of cedents for commission increase. The reinsurance commission is the greatest expense in Bosna RE operations. Bosna RE's cedents aim to cover their acquisition costs through partial return or reinsurance premium. Therefore, there is a continuous pressure for commission increase which makes a great problem for Bosna RE.

6. TROŠKOVI PROVOĐENJA POSLOVA REOSIGURANJA

Troškovima provođenja poslova reosiguranja, kao i svake godine, posvećuje se posebna pažnja. Ovi troškovi se prate gotovo svakodnevno i nastoji se ostvariti puna kontrola nad njima. Troškovi ostvareni u 2014. godini (bez provizija) veći su od ostvarenja u prethodnoj godini za 4,77%, a od plana troškova su veći za 4,51%. Ovaj rast ukupnih troškova posljedica je rasta ostalih rashoda po finansijskim i materijalnim ulaganjima koji je proizašao iz reklasifikacije određenih kategorija ulaganja koje su učinjene u 2014. godini. Istovremeno troškovi pribave su za svega 0,7% veći od troškova ostvarenih u istom periodu 2013. godine i za 0,78% su manji od planiranih. Posebno naglašavamo činjenicu da su troškovi u odnosu na neto premiju smanjeni za 3,27% u odnosu na ostvarenje 2013. godine i manji su za 0,24% od planiranih, što u cijelosti odražava maksimalne napore koje Bosna RE čini ka optimizaciji ukupne kombinovane kvote koja predstavlja konačni pokazatelj uspješnosti poslovanja poslovnih subjekata u djelatnosti osiguranja.

Pregled ostalih troškova poslovanja i posebno troškova akvizicije dan je u narednoj tabeli 15.

6. REINSURANCE OPERATING COSTS

As always, a special attention is paid to the reinsurance operating costs. Those costs are monitored almost daily. The costs realized in 2014 (without commission) increased by 4.77% compared to previous year and by 4.51% more than costs planned. This growth of total costs is a result of growth of other expenses from financial and material investments as a consequence of certain categories of investments in 2014. At the same time the acquisition costs are by only 0.7% higher than the costs recorded for the same period of 2013 and by 0.78% lower than planned. We must emphasize the fact that costs relating to net premium are decreased by 3.27% compared to the results in 2013 and by 0.24% compared to plan, which in a whole reflects Bosna RE's maximum efforts in optimization of total combined ratio that represents a final indicator of efficacy of business subject in the insurance industry.

The review of other operating costs, particularly acquisition costs is given in the Table 15.

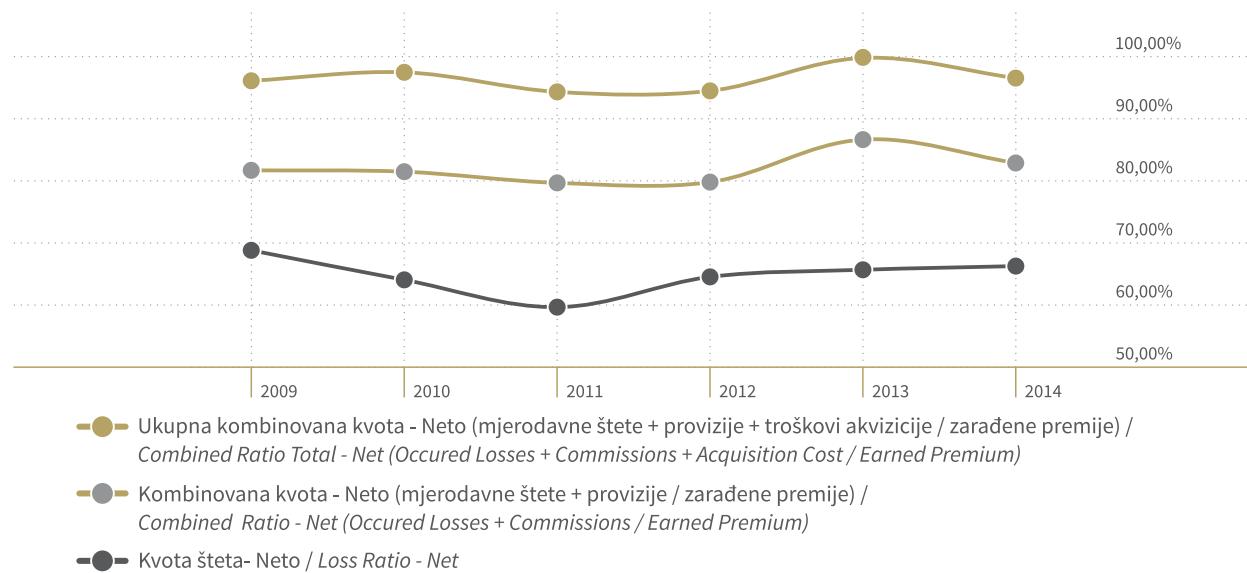

Table 15

7. KVOTA ŠTETA

Tabela 16 i grafikon 9 daju podatke o kvoti šteta za period 2009. - 2014. godina. Ostvarena ukupna kombinovana neto kvota je znatno bolja od ostvarenja u prethodnoj godini, i značajno je ispod 100 što predstavlja izuzetan uspjeh u godini kakvu smo imali. Unaprjeđenje ukupne kombinovane kvote odraz je sveukupnih napora koje Bosna RE čini u pogledu unaprjeđenja performansi poslovanja. Ukupna kombinovana kvota bila bi dodatno unaprijeđena da je godina koja je za nama u pogledu šteta bila "normalna" i da nije došlo do povećanja neto kvote šteta.

7. LOSS RATIO

The Table 16 and Graph 9 show data on loss ratio for the period 2009 – 2014. The realization of total combined loss ratio is much better than in previous year and significantly below 100, which is a great success for the year as we had. The improvement of total combined ratio is a result of Bosna RE's efforts to improve its business performance. The total combined ratio would have been additionally improved if the year that past had been the "usual" one concerning the losses and if net loss ratio had not increased.

Kapital Bosna RE-a u 2014. godini uvećan je za 3,97% u odnosu na 2013. godinu, ili za 324,05 posto u odnosu na 2002. godinu. Dionički kapital je u toku 2014. godine uvećan za 1,5 miliona KM kao posljedica naznaka novog zakonskog rješenja koje će postaviti minimum dioničkog kapitala za obavljanje poslova reosiguranja na viši nivo. Pomenuto uvećanje dioničkog kapitala izvršeno je u skladu sa odlukama Skupštine Bosna RE iz zakonskih i statutarnih rezervi Bosna RE tako da su iste smanjene za 0,43% u odnosu na 2013. godinu ali su i dalje ostale veće za 6,33 puta u odnosu na 2002. godinu. Povrat na raspoloživi kapital manji je za 12,94% u odnosu na isti ostvaren u 2013. godini kao posljedica konstantnog rasta prosječno raspoloživog kapitala ali je i dalje na visokom nivou.

Compared to 2013, Bosna RE equity increased by 3.97% in 2014, or 324.05 percentages compared to 2002. The share capital in 2014 increased for BAM 1.5 million as a response to the announcement of a new law regulation that will stipulate a higher level of minimal share capital in reinsurance business. The mentioned increase of share capital is carried out in accordance to Bosna RE Assembly decisions from Legal and Statutory reserves that are in this way lessen by 0.43% compared to 2013 but which still remain 6.33 times higher than in 2002. Return on available equity is by 12.94 less than the one recorded in 2013 as a consequence of continuous growth of average equity but is still at high level.

9. OSTVARENJE PRIHODA I RASHODA

Bilans stanja i bilans uspjeha za poslovnu 2014. godinu sačinjeni su na osnovu Zakona o osiguranju, Zakona o računovodstvu i Kodeksa računovodstvenih načela i Računovodstvenih standarda. Revizija finansijskih izvještaja izvršena je od strane neovisne revizorske kuće Deloitte d.o.o. iz Sarajeva, koja je dala svoje neovisno revizorsko mišljenje. Ovo mišljenje je sastavni dio bilansnih izvještaja.

Osnovna načela odnosno pravila i metode ocjenjivanja bilansnih pozicija koja su primjenjivana u poslovanju u protekloj godini su:

Return on total equity is presented in the Table 18 and Graph 10.

9. INCOME AND EXPENSES

Balance Sheet and Profit and Loss Account for 2014 are made in accordance to the Insurance Laws, Accounting Law and Code of Accounting Principles and Accounting Standards. The independent Auditing Company, Deloitte d.o.o. audited financial statements and issued its independent auditors report. That report is incorporated in balance statements.

The basic principles, rules and methods of valuation of balance items applied in business operations for the last year were:

- Materijalna i nematerijalna stalna sredstva vode se po nabavnoj vrijednosti.
- Amortizacija se obračunava po linearnoj metodi, uz primjenu Odluke Vlade Federacije BiH, kao i odluke Uprave Društva.
- Potraživanje i obaveze iz inostranstva svode se na domaću valutu po srednjem kursu na dan 31.12.2014. godine.

Ostvareni ukupan prihod u 2014. godini iznosi KM 34,87 miliona, što je za 0,83% više u odnosu na ostvarenje iz prethodne godine. U odnosu na plan za 2014. godinu, ukupan prihod je manji za 0,16%.

Bruto premija reosiguranja iznosi KM 51,28 miliona. Premija retrocesije iznosi KM 24,66 miliona. Neto premijski prihod je KM 26,62 miliona. Bruto premija reosiguranja ostvarena u zemlji iznosi KM 42,22 miliona i za 0,40% je manja od izvršenja u prethodnoj godini, odnosno za 2,78% manja u odnosu na plan-ske veličine. Premija reosiguranja ostvarena u inozemstvu je KM 9,06 miliona i za 7,65% je manja od ostvarenja u 2013. godini. Razlozi za smanjenje ostvarene premije u zemlji i inozemstvu su već ranije komentirani. Provizija koja je dobivena po osnovu retrocesije iznosi KM 6,88 miliona.

Ukupni rashodi za 2014. godinu iznose KM 33,04 miliona. Najveći dio rashoda predstavljaju neto štete reosiguranja koje iznose KM 17,64 miliona, što je za 4,93% više u odnosu na ostvarenje za 2013. godinu, odnosno za 4,31% više od planiranih neto šteta za 2014. godinu. Bruto štete iznose KM 33,30 miliona i veće su za 39,78% u odnosu na isti period prethodne godine, odnosno za 39,83% su veće od planiranih što je posljedica masovne prirodne katastrofe koju smo imali u BiH u 2014. godini i već je komentirano.

Provizija reosiguranja koju Bosna RE daje svojim cedentima na ime pokrivanja troškova prihvate iznosi KM 11,60 miliona. Ovaj iznos je izuzetno visok i rezultat je prije svega izrazito visokih i nepovoljnih ugovorenih profitnih provizija za ugovornu 2012. godinu te dobrih rezultata ugovora o reosiguranju te ugovorne godine što

- Tangible and non-tangible assets are recorded at their purchase value.
- Depreciation is calculated per linear method, applying the Decision by Government of Federation of BiH and decision of the Management of the Company.
- Receivables and liabilities from abroad are converted under the average rate of exchange as at 31 December 2014.

Total income recorded in 2014 amounts BAM 34.87 million, by 0.83% more than recorded in previous year. Compared to the plan for 2014, total income recorded is by 0.16% less than planned.

The gross reinsurance premium amounts BAM 51.28 million. The retrocession premium amounts BAM 24.66 million. The net premium income is BAM 26.62 million. The gross reinsurance premium earned at home amounts BAM 42.22 million that is by 0.40% less than recorded in previous year i.e. by 2.78% less than planned. The reinsurance premium earned abroad is BAM 9.06 million, by 7.65% less than realized in 2013. We have already discussed the reasons for decrease of the amount of premium earned at home and abroad. The commission earned from retrocession amounts BAM 6.88 million.

The total expenses in 2014 amount BAM 33.04 million. The greatest portion of expenses refers to net reinsurance losses in the amount of BAM 17.64 million, by 4.93% more than recorded in 2013 i.e. by 4.31% more than net losses planned in 2014. Gross losses amount BAM 33.30 million, by 39.78% more than recorded for the same period of previous year i.e. by 39.83% more than planned which is a result of natural catastrophe BiH experienced in 2014 and what we have already discussed.

The reinsurance commission that Bosna RE assigns to the cedents for their acquisition costs amounts BAM 11.60 million. The amount is rather high primarily because of extremely high and unfavourable profit commission stipulated in 2012 contracts and good results

je došlo na naplatu Bosna RE-u u 2014. godini ali i povećanja provizija utvrđenih ugovorima o reosiguranju, prilikom obnove za 2014. godinu. Treba naglasiti da su dane provizije dosegle svoj maksimalni nivo i da samo dobri rezultati u okviru šteta reosiguranja omogućavaju Bosna RE da iz osnovnog posla ostvaruje pozitivan rezultat.

Stanje neto tehničkih rezervisanja dano je u tabeli 19.

Tehničke rezerve na dan 31.12.2014. godine su umanjene u odnosu na rezerve iz istog perioda prethodne godine za 1,25%. Ovo smanjenje tehničkih rezervi posljedica je sa jedne strane rasta neto plaćenih šteta a sa druge strane smanjenja rezervi za bonusе i popuste što je direktna posljedica visokih profitnih provizija koje su isplaćene u 2014. godini. Ipak, kako je već napisano kombinacija odnosa zarađene premije, nastalih šteta te provizija i troškova pribave dovela je do značajnog smanjenja ukupne kombinovane kvote.

Razlika između prihoda i rashoda iznosi KM 1.825.665,81 što predstavlja bruto dobit za 2014. godinu. Ostvarena bruto dobit je za 11,56% manja od ostvarenja u 2013. godini, odnosno 11,81% je manja od planirane ali se ostvarena bruto dobit, kada se uzme u obzir već opisani karakter protekle godine, može smatrati vrlo dobrim rezultatom.

of reinsurance treaties in that year which for Bosna RE came due in 2014 and also because of growth of commission stipulated by reinsurance treaties in 2014 renewal. It must be noted that commission reached its maximum and only good results in reinsurance losses enables Bosna RE to record a positive results from basic line of business.

The Table 19 shows Net Technical Reserves.

Table 19

The technical reserves as at 31 December 2014 decreased by 1.25% compared to the same period of the previous year. This decrease in technical reserves is a result of growth of net losses paid, on one side and decrease of reserves for bonuses and discounts on the other side, as a direct consequence of high profit commissions paid in 2014. However, as it is said before, the combination of the premium earned, the losses occurred, commission and acquisition costs ratio significantly decreased total combined ratio.

The difference between the income and expenses amounts BAM 1,825,665.81 is a gross profit for 2014. The profit recorded is by 11.56% less than realization in 2013 i.e. by 11.81 less than planned but, considering already described character of previous year, realized gross income can be considered a very good result.

Porez na dobit iznosi KM 221.104,00, tako da neto dobit iznosi KM 1.604.561,81. Ostvarena neto dobit je za 9,23% manja od ostvarenja u 2013. godini. Uzroci smanjenja neto dobiti direktna su posljedica smanjenja bruto dobiti za što su uzroci već pojašnjeni.

Svi pokazatelji zarade po dionici u 2014. godini nominalno su značajno umanjeni u odnosu na 2013. godinu. Ova značajna umanjenja proizilaze sa jedne strane iz podjele dionica na 5 puta veći broj čime je umanjena nominalna vrijednost jedne dionice a sa druge strane uvećanja dioničkog kapitala koje je učinjeno nakon podjele dionica čime je automatski povećana nominalna vrijednost dionica. Na osnovu prethodno navedenog jasno se da zaključiti da su umanjenja prije svega nominalnog karaktera i ne predstavljaju realna umanjenja proizišla iz poslovnih performansi.

U narednoj tabeli (Tabela 20), dati su pokazatelji o zaradi po dionici (bruto, neto) za period 2009. – 2014. godina.

Income tax amounts BAM 221,104.00 and therefore net income amounts BAM 1,604,561.81. The net income recorded is by 9.23% less than in 2013. The reasons of decrease in net income are direct consequence of decrease in gross income which we explained earlier.

All indicators on earnings per share in 2014 are nominally decreased compared to 2013. That decrease is a result of division of the shares to 5 times greater number which on one side decreased nominal value per share but, on the other side the increase of share capital after division of shares, automatically increased nominal value of the share. Based on the facts stated above, it is clear that all decreases had nominal character only and do not present actual decreases as a result of business performance.

The following table (Table 20), gives the indicators of earnings per share (gross, net) for the period 2009 - 2014.

Društvo je na XIV Skupštini dioničara održanoj 26. septembra 2014. godine usvojilo Odluku o podjeli dionica. Izvršena je podjela dionica tako što se jedna dionica dijeli na 5 (pet) dionica i utvrđuje nova nominalna vrijednost od 260,00 KM po dionici. Ukupan broj dionica nakon podjele iznosi 19.345. Nakon podjele dionica ukupna vrijednost upisanog osnovnog dioničkog kapitala Društva ostala je nepromijenjena i iznosi 5.029.700 KM (podijeljenog na 19.345 redovnih dionica nominalne vrijednosti 260,00 KM). U skladu sa navedenom Odlukom, podjela dionica neće uticati na poslovanje Društva, prava dioničara kao i izvršavanje obaveza prema povjeriocima Društva.

Također, na istoj sjednici jednoglasno je usvojena Odluka o povećanju osnovnog kapitala povećanjem nominalne vrijednosti dionice sa 260,00 KM na 340,00 KM, čime je dionički kapital Društva uvećan za 1.547.600 KM. Ukupan dionički kapital Društva nakon povećanja nominalne vrijednosti dionice iznosi 6.577.300 KM.
